

TRADING CENTRAL Indicator for MetaTrader4 Trader / User Set up & Configuration

Description

TC.TechnicalAnalysis is an easy to install, multilingual customizable Indicator designed to help traders make profitable decisions 24/5!

TC.TechnicalAnalysis is a unique Indicator which allows your customers to see TRADING CENTRAL's levels and strategies directly on live charts. Actionable content, user friendly interface, customizable timeframes, the **TC.TechnicalAnalysis** Indicator also allows users to fill in orders and program trades based on TRADING CENTRAL levels!

Subscribing to the TRADING CENTRAL live feed

The TRADING CENTRAL Indicator automatically delivers live data to licensed broker. If the Indicator does not work on your MT4, your broker is probably not licensed by TRADING CENTRAL. In this case please contact your broker and request a license.

tallation process

The latest version of our Indicator can be downloaded from: http://www.tradingcentral.com/Install_Trading_ Central_Indicator_for_MetaTrader/setup.exe You need just to follow some simple steps proposed by the installer:

Now restart your MetaTrader	ナビゲーター	Custom Indicator - TC.TechnicalAnalysis
Go to Navigator > Custom	 	Common Inputs Colors Levels Visualization
Indicators and look for TC.TechnicalAnalysis (7).	🖃 🧏 Custom Indicators	
Drag and drop the Indicator to a chart and check Allow DLL imports option (3).	🛃 Awesome 🛃 MACD 🛃 Momentum	 Allow DLL imports Allow external experts imports
		Fixed minimum 💟 0 Fixed maximum 📝 1
7	🔗 ZigZag ⊕ 💐 Scripts	8 OK Annuler Reset

Installation process

You can also enable Allow DLL imports option once for all indicators and Expert Advisors (9) Go to Tools > Options > Expert Advisors. Check Allow DLL imports. Make sure to not check Confirm DLL function calls (if you don't want to manually confirm every function from libraries execution).

In the same window (appeared when your drag and drop the Indicator to a chart), select the Inputs tab (10). Here, you can set any parameters you wish to personalize the TC.TechnicalAnalysis Indicator.

You have the possibility to choose one of 25 languages provided by TRADING CENTRAL by specifying the necessary code in the "CustomLanguage" parameter (see Features and Parameters). Leave the CustomLanguage parameter empty if you want the Indicator to use the MetaTrader interface language you use currently.

If you would like to see our analyses in Portuguese, Romanian, Malay or Thai (languages which are not available in MetaTrader interface), just put the corresponding code (PT, RO, MS, TH) into the CustomLanguage field.

Whatever language you want to use, you need to have the correct setting in your system for non-unicode programs (see the Regional and Language Options in the control panel).

		ROROMANIANZH_TWTRADITIONAL CHINESEPLPOLISHHEHEBREWKOKOREANIDINDONESIANMSMALAYTHTHAISVSWEDISHPT_BRBRASILIANCZCZECHSKSLOVAKHUHUNGARIAN
Our opinion on selected period (at the top right corner)	Display: true Font size: 14 Font color for RISE opinion: green Font color for DECLINE opinion: red	 ✓ (ShowPreference) ✓ (PreferenceFontSize) ✓ (PreferenceRiseColor) ✓ (PreferenceDeclineColor)
The legend explaining the meaning of our levels	Display: true Font size: 10	✓ (ShowLegend)✓ (LegendFontSize)
Alerts on horizontal levels (when one of our levels is crossed upwards or downwards by the price level)	Enabled: true Alert example: Signal EURUSD 30 min Price level 1.31400 crossed downwards. A 16:59:59 EURUSD 30 min Price level 1.31400 crossed downw	✓ (EnableAlerts)
Our levels and comment are adjustable to the selected period		INTRADAY analysis is shown when you choose M1, M5, M15, M30, H1 or H4 periods SHORT TERM analysis corresponds to D1 period MEDIUM TERM is used for W1 and MN (sometimes also for D1 when SHORT TERM analysis is not available)
Possibility to manually set the product to analyze	Automatically retrieved by the Indicator (when you apply it to a chart)	(CustomSymbol) Normally there is no need to set it manually, because we have all product codes used by brokers and this code is retrieved automatically from your chart. But, if the matching is not correct, you can type yourself here the correct symbol.

Upgrade process

When a new version of the Indicator is available, a user gets a notification inside their MetaTrader and the loading starts automatically after clicking the OK button.

The previous version is no longer valid.
